

BARCLAYS STOP ARMING ISRAEL

Israel's genocide in Gaza has killed many tens of thousands of Palestinians, and caused almost incalculable devastation.

Across the occupied West Bank, Israel continues its military assaults and ethnic cleansing of Palestinians, part of its system of apartheid.

Barclays invests £2billion in, and provides loans worth £6.1billion to, companies supplying Israel with weapons used in its attacks on Palestinians.

The bank also has an agreement with Israel to act as a 'primary dealer' for its government bonds. This means Barclays directly helps Israel raise money to fund its atrocities.

Boycott Barclays until it ends its financial support for Israel's crimes.

www.palestinecampaign.org

Barclays invests in:

- **Caterpillar**, which supplies the Israeli military with bulldozers, which are weaponised and used to destroy Palestinian homes, schools and hospitals.
- **General Dynamics**, which produces the guns that arm the F-16 and F-35 fighter jets used by Israel to bomb the Gaza Strip.

Palestinians have asked us to take action against companies, like Barclays, that are complicit in the violence they face.

We are calling on people to boycott Barclays until it ends its complicity in Israel's human rights abuses. Closing your Barclays account is simple and makes a meaningful difference.
